Rise Time Clocks

Capture accurate timekeeping data from your workforce

Rise time clocks help you automatically capture labour information to give you more insight into your workforce. Versatile and easy to install, they connect directly with your network and integrate with Rise's Time and Attendance module to give you accurate and timely updates.

Choice of Readers

Sleek and accurate in a compact, efficient footprint. Reliable and durable fingerprint sensor provides fast user recognition. Choice of barcode, magnetic stripe, and proximity card readers.

Communication

Installs easily on your network and supports both Ethernet and optional Wi-Fi connections. The standard serial port lets users connect directly to their PC. The USB host port allows users to retrieve data using a flash drive.

Display

Stunning 3" colour TFT screen for display of graphics, icons and photos. Managers can leave SMS messages for employees reporting in/out of work.

Bell/Alarm

Built-in scheduler and relay contact can ring an external bell/alarm to signify the start and close of work shifts. The relay can also be connected to a door strike/lock.

Keypad

Rugged keypad with 4 additional function keys to customize the terminal for special requirements (i.e. clock in/out, break in/out, job code entry, tip entry)

Capacity

Supports up to 5,000 fingerprint templates or 10,000 cards/badges and up to 50,000 transactions.

Options: Can be configured with optional Wi-Fi module, and readers for HID Prox, HID iClass and Mifare cards.
